Patient Reminder – Flu Season 2019

We would like to remind you about the importance of receiving a flu vaccine from your primary care provider. Vaccination is especially important for people at high risk of influenza complications including older adults and patients with chronic medical conditions.

Please be advised: Pharmacies are available to provide this service but the information is not always shared with your primary care provider in a timely fashion. To ensure continuity of care, we recommend getting the flu vaccine from your doctor’s office.

If you already have an appointment scheduled between September and December 2019, you can receive your flu shot during your regularly scheduled visit.

As in previous years, we are also offering walk-in flu clinics, no appointment necessary.

Our first walk-in clinic is scheduled for Tuesday, September 17th 2019 from 1:00 – 4:00 PM.

The walk-in schedule for 2019 is as follows, additional dates may be added as needed.

September 2019 – December 28, 2019

Tuesdays 1:00 P.M. – 4:00 P.M.
Wednesdays 9:00 A.M. – Noon.
Thursdays 9:00 A.M. – Noon.
Fridays 9:00 A.M. – 4:00 P.M.

Please remember to bring a copy of your insurance card so your insurance can be billed. If you don’t have insurance or if your insurance doesn’t cover flu injections, the cost to receive a flu shot will be collected at the time of service.
