Our Physicians

Gary Glazer, M.D., F.A.C.P.
Dr. Glazer holds his M.D. from the University of Rochester School of Medicine and Dentistry and completed his residency at Highland Hospital. He is a respected physician, published researcher, and dedicated teacher and his passion is working with his patients towards personal weight loss and fitness goals.

Shyla Krishnan, M.D.
Dr. Shyla Krishnan completed her medical education in India, and her medical residency program at University of Rochester School of Medicine and Dentistry. She went on to complete her Fellowship in Geriatrics at the University of Rochester School of Medicine and Dentistry. She is also a Clinical Instructor in Medicine at the University of Rochester School of Medicine and Dentistry.

Sylvia Park, M.D.
Dr. Park is a graduate of Johns Hopkins University, received her M.D. from the University of Rochester School of Medicine and Dentistry and completed her residency at Strong Memorial Hospital. She is also a Clinical Senior Instructor in Medicine at the University of Rochester School of Medicine and Dentistry.

David Stornelli, M.D.
Dr. Stornelli grew up in Rochester, received his M.D. from the University of Rochester School of Medicine and Dentistry and completed his residency in Internal Medicine at Johns Hopkins Medical Center in Baltimore, Maryland. With a longstanding passion for health care reform, Dr. Stornelli has served as President of the local chapter of Physicians for National Health Program, District President of the New York Chapter of the American College of Physicians, and is the President of the Highland Hospital Medical Staff.

Our Practice

Alexander Medical Group cares for you in a Patient-Centered Medical Home environment. That means that we work together and with you to make sure that you have access to the services you need and that you are receiving the best care.

- Physicians, care manager, medical assistants and others meet to review charts of our patients scheduled for appointments and to identify unique patient needs.
- We are alerted when our patients are discharged from the hospital and will contact within 24 hours to ensure that discharge instructions are understood and patients have appropriate transportation for follow up appointments.
- We closely review our records to identify patients who are at high risk or have chronic diseases such as diabetes or heart failure and we make sure our patients have information and services needed.

Our physicians and staff work with you as a team to so that you receive your care at the right place, at the right time and in the right manner for you!”

To schedule an appointment, call our office at 585.546.1272.

We offer automated courtesy calls to remind you of your appointment. Your cooperation in arriving on time for your visit is appreciated

Missed Appointments

We strive to offer same-day sick visits and appointments for urgent problems. Missed and cancelled appointments impact other patients who could have been seen in the time set aside for your appointment. If you need to cancel, please contact us 24 hours in advance.

Our Patient Portal

Our Patient Portal provides you with secure, online access to portions of your medical records, as well as an easy and convenient way to communicate with the practice through a secure internet connection.

What is the Patient Portal?

- The Patient Portal provides you with secure, online access to portions of your medical records, as well as an easy and convenient way to communicate with the practice through a secure internet connection. Think of it as an online account for your doctor’s office, similar to online banking or credit card accounts you may currently have.
- Once you are logged into your portal account, the information you view pulls from your own personal medical record. Only you will have access to your health records, including any messages or information sent to you from the practice.

Why is the Patient Portal important for me?

With the patient portal you will be able to:

- Send and receive non-urgent messages and information from your doctor’s office, including test results and educational material
- Easily notify the practice of changes to your personal information, including phone number, address, and insurance changes
- Request a refill for a medication prescribed by a provider at the practice
- View upcoming and previous appointments, including the doctor and location of those appointments
- View and/or print your current medications and allergies list

We take great care to make sure your health information is kept private and secure. Only you will have access to the login information needed to view your account.

What do I need to set up a Patient Portal?

- Access to a computer
- Email address
- Activation code from our office
